Secret Hospitals Built for Murder: the Truth Behind Massive 'Anti-Lockdown Protests' | Facts Matter

“Watching the massive protests spring up across the entire world right now brings to mind a quote I read: **“You can vote your way into communism, but eventually, your grandkids will have to shoot their way out.”**”

I learned about the truth behind that quote exactly three years ago, while I was doing on-the-ground reporting in Hong Kong. Back then, my team and I were running around the city day and night, following the freedom protests springing up across the whole island, fighting back against the encroachment of the Chinese Communist Party.

And it was during my time covering those protests that my love for the freedoms that we take for granted here in America was reignited—the sacrifices that were made throughout history, as well as the lives that were lost by American patriots, to ensure that we have the right to free speech, the right to freedom of the press, the right to peaceably assemble, and the right to voice our dissent.

And especially, my appreciation for the [Second Amendment](#) was reinforced 100-fold, because in Hong Kong, I met so many people who wished to their very core that they had a second amendment, just like us.”

Sun. 4 Dec. 2022 "545 vs. 300,000,000 People," Charlie Reese (Charley Reese has been a journalist for 49 years. This is his final column for the Orlando Sentinel).

<https://t.me/CaptKylePatriots/107940>

Politicians are the only people in the world who create problems and then campaign against them. Have you ever wondered if both the Democrats and the Republicans are against deficits? WHY do we have deficits?

Have you ever wondered if all the politicians are against inflation and high taxes? WHY do we have inflation and high taxes?

You and I don't propose a federal budget. The President does.

You and I don't have the Constitutional authority to vote on appropriations. The House of Representatives does.

You and I don't write the tax code, Congress does.

You and I don't set fiscal policy, Congress does.

You and I don't control monetary policy, the Federal Reserve Bank does.

One hundred senators, 435 congressmen, one President, and nine Supreme Court justices equates to 545 human beings out of the 300 million are directly, legally, morally, and individually responsible for the domestic problems that plague this country.

I excluded the members of the Federal Reserve Board because that problem was created by the Congress. In 1913, Congress delegated its Constitutional duty to provide a sound currency to a federally chartered, but private, central bank.

I excluded all the special interests and lobbyists for a sound reason. They have no legal authority. They have no ability to coerce a senator, a congressman, or a President to do one cotton-picking thing. I don't care if they offer a politician \$1 million dollars in cash. The politician has the power to accept or reject it. No matter what the lobbyist promises, it is the legislator's responsibility to determine how he votes.

Those 545 human beings spend much of their energy convincing you that what they did is not their fault. They cooperate in this common con regardless of party.

What separates a politician from a normal human being is an excessive amount of gall. No normal human being would have the gall of a Speaker, who stood up and criticized the President for creating deficits.. (The President can only propose a budget. He cannot force the Congress to accept it.)

The Constitution, which is the supreme law of the land, gives sole responsibility to the House of Representatives for originating and approving appropriations and taxes. Who is the speaker of the House? (Nancy Pelosi) She is the leader of the majority party. She and fellow House

members, not the President, can approve any budget they want.) If the President vetoes it, they can pass it over his veto if they agree to. [The House has passed a budget but the Senate has not approved a budget in over three years. The President's proposed budgets have gotten almost unanimous rejections in the Senate in that time.]

It seems inconceivable to me that a nation of 300 million cannot replace 545 people who stand convicted — by present facts — of incompetence and irresponsibility. I can't think of a single domestic problem that is not traceable directly to those 545 people. When you fully grasp the plain truth that 545 people exercise the power of the federal government, then it must follow that what exists is what they want to exist.

If the tax code is unfair, it's because they want it unfair.

If the budget is in the red, it's because they want it in the red.

If the Army & Marines are in Iraq and Afghanistan it's because they want them in Iraq and Afghanistan.

If they do not receive social security but are on an elite retirement plan not available to the people, it's because they want it that way.

There are no insoluble government problems.

Do not let these 545 people shift the blame to bureaucrats, whom they hire and whose jobs they can abolish; to lobbyists, whose gifts and advice they can reject; to regulators, to whom they give the power to regulate and from whom they can take this power. Above all, do not let them con you into the belief that there exists disembodied mystical forces like "the economy," "inflation," or "politics" that prevent them from doing what they take an oath to do.

Those 545 people, and they alone, are responsible. They, and they alone, have the power. They, and they alone, should be held accountable by the people who are their bosses. Provided the voters have the gumption to manage their own employees... We should vote all of them out of office and clean up their mess!

Tax his land; Tax his bed; Tax the table at which he's fed.

Tax all he has, Then let him know That you won't be done till he has no dough.

When he screams and hollers; Then tax him some more. Tax him till He's good and sore.

Then tax his coffin; Tax his grave; Tax the sod in which he's laid.

Put these words upon his tomb, 'Taxes drove me to my doom...'

What in the heck happened? Can you spell 'politicians?'
